⁽²⁾ Funds from operations ('FFO') figures have been presented to provide additional information to investors to facilitate comparison with other hotel companies with substantial real estate interests. FFO is defined as profit attributable to shareholders excluding depreciation of hotel buildings, net of relevant deferred tax and minority interests.

⁽³⁾ The net asset value per share with leasehold properties at valuation has been presented after adjusting for the market value of the Group's leasehold interests. International Financial Reporting Standards ('IFRS') do not permit leasehold interests of owner-occupied land to be carried at valuation. The Group considers that the IFRS treatment does not reflect the economic substance of its underlying property investments. Therefore, the Group has presented the net asset value per share taking into account the fair market value of leasehold interests as supplementary financial information in addition to the net asset value per share in accordance with IFRS.

MANDARIN ORIENTAL INTERNATIONAL LIMITED INTERIM REPORT 2007

OVERVIEW

Conditions in the first half of 2007 have remained strong, particularly in the Group's key markets. Increasing average room rates together with a full contribution from the newly-renovated Mandarin Oriental, Hong Kong have enhanced significantly the Group's results. Excellent progress has also been made in the Group's development programme, with 16 hotels now under development following the announcement of five new projects during the period.

PERFORMANCE

Earnings before interest, tax, depreciation and amortization for the first six months of 2007 were US\$85 million, which compares with US\$49 million for the comparable period in 2006 when Mandarin Oriental, Hong Kong was closed.

Profit attributable to shareholders for the period was US\$50 million compared with US\$49 million for the first half of 2006. The 2007 result benefited from a US\$16 million gain arising from the sale of half the Group's 50% equity interest in Mandarin Oriental, New York, while the 2006 comparative included a US\$35 million gain arising from disposal of The Mark hotel. Excluding such gains, profit attributable to shareholders was US\$34 million in the first half of 2007, compared with US\$14 million in the first half of 2006.

Including gains on disposals, earnings per share for the first six months of 2007 were US¢5.19, compared to US¢5.04 in the corresponding period in 2006. Excluding such gains, earnings per share were US¢3.54 and US¢1.42, respectively.

An interim dividend of $US \not\in 1.00$ per share has been declared (2006 – nil).

GROUP REVIEW

Mandarin Oriental, Hong Kong performed well in the first six months, benefiting from a higher average room rate following the completion of its refurbishment programme. The Excelsior, Hong Kong also achieved good growth in its room rate. The contribution from

the Group's hotels in London and Geneva was higher due to strengthening occupancy and room rates. Occupancy at the Munich hotel however, showed some decline due to the effect of a three-month refurbishment programme, which has now been completed. The Washington D.C. property continued to improve its market position with revenue per available room up 13%.

The contribution from associates and joint ventures showed some improvement despite the disposal of part of the Group's investment in Mandarin Oriental, New York. The sale reduced the Group's equity interest in the hotel from 50% to 25% and its US\$41 million mezzanine loan to the hotel was repaid. The contribution from the 50%-owned Singapore property, which was renovated in 2005, rose due to a 34% increase in revenue per available room.

DEVELOPMENTS

Over the past six months, the Group has announced five new hotel projects. These include a 241-room luxury hotel in the new, landmark headquarters of China Central Television (CCTV) in Beijing, which will open in July 2008 in time for the Summer Olympics; and a 150-room palace hotel to open in central Paris in late 2010. Most recently, the Group announced it will manage a new luxurious 130-room beach resort and branded residences on Costa Rica's northern Pacific coast that will open in 2009.

The Group now has approximately 9,800 rooms in operation or planned and should reach its mid-term goal of operating 10,000 rooms in major cities and resort destinations within the next few years. The Group's geographic spread has increased significantly with more than half of its portfolio now outside of Asia.

The strength of the brand continues to attract considerable interest from new owners and developers and Mandarin Oriental's growth is well-positioned to continue. The Group has 16 announced projects and, with the exception of Paris, these will be managed on behalf of third-party owners, requiring little or no investment from the Group. Eight hotels under development have incorporated a *Residences at Mandarin Oriental* component, in addition to the residences being built adjacent to the Group's London property.

OUTLOOK

In conclusion, the Chairman, Simon Keswick said, "Conditions are expected to remain favourable during the remainder of the year which will benefit the Group's operations and continue to provide further development opportunities."

Share of results of associates and joint ventures is stated after charging depreciation and amortization of US\$6.0 million (2006: US\$6.4 million).

5. TAX

Tax on profits has been calculated at rates of taxation prevailing in the territories in which the Group operates.

The 2006 tax on profits included a tax charge of US\$41.8 million arising on the disposal of the Group's 100% interest in The Mark, New York (refer note 10).

6. EARNINGS PER SHARE

Basic earnings per share are calculated on profit attributable to shareholders of US\$50.3 million (2006: US\$48.7 million) and on the weighted average number of 968.6 million (2006: 966.2 million) shares in issue during the period. The weighted average number excludes shares held by the Trustee under the Senior Executive Share Incentive Schemes.

Diluted earnings per share are calculated on profit attributable to shareholders of US\$50.3 million (2006: US\$48.7 million) and on the weighted average number of 988.2 million (2006: 976.8 million) shares after adjusting for the number of shares which are deemed to be issued for no consideration under the Senior Executive Share Incentive Schemes based on the average share price during the period. The number of shares for basic and diluted earnings per share is reconciled as follows:

Ordin	linary shares in millions		
	2007	2006	
Weighted average number of shares in issue	968.6	966.2	
Adjustment for shares deemed to be issued for no consideration under the Senior Executive Share Incentive Schemes	19.6	10.6	
Weighted average number of shares for diluted earnings per share	988.2	976.8	

Additional basic and diluted earnings per share are also calculated based on profit before gains on disposal. A reconciliation of earnings is set out below:

		S	ix months en	ded 30th J	une	
		2007			2006	
	US\$m	Basic earnings per share US¢	Diluted earnings per share US¢	US\$m	Basic earnings per share US¢	Diluted earnings per share US¢

Profit attributable to shareholders	50.3	5.19	5.09	48.7	5.04	4.99

The Directors consider funds from operations ('FFO') to be a supplemental measure of the Group's performance and believe this should be considered along with, but not as an alternative to, profit attributable to shareholders as a measure of the operating performance.

6. EARNINGS PER SHARE (Continued)

FFO is defined as profit attributable to shareholders excluding depreciation of hotel buildings, net of relevant deferred tax and minority interests.
