This focus on quality management and continuous improvement has led the Group to develop systems and processes which guide generations of management in their efforts to pursue excellence.

The most significant of these systems is our 'Legendary Quality Experiences' that set Mandarin Oriental apart from other companies. Implemented in all hotels, these guidelines focus on experiences rather than basic luxury standards, and are regularly reviewed in response to guests' ever-changing requirements.

“Mandarin Oriental portfolio is so synonymous with contemporary luxury that it’s easy to forget the story began way back in 1960 with the construction of The Mandarin in Hong Kong. This glittering property is still the jewel in the crown, and the levels of service and attention to detail continue to influence the rest of the group — and rival hotel brands worldwide.”

Conde Nast Traveller, UK

“Mandarin Oriental was always a solid bet for attention to detail and exemplary service. The smiling, attentive staff, who look like they actually want to be there, are a reminder of what hospitality is all about; they make you feel welcome as soon as you walk through the door, and the overall impression is that no request is too much. There’s a risk sometimes that the high-end veers into snootiness, but here it just feels friendly and personable.”

Financial Times

“As soon as you enter Mandarin Oriental Ritz, Madrid, you fall under the spell of this iconic hotel. The welcome and the quality of the service are exceptional. A caring staff for a five-star stay.”

Elle Decoration Oriental, France

“Mandarin Oriental Hyde Park, London has kept hold of its historic charm despite the modern makeover. A gracious and unstuffy grande dame.”

Conde Nast Traveller, UK
