ACCLAIMED PEDI:PODIATRIST BASTIEN GONZALEZ UNVEILS INNOVATIVE NEW SHOE INSOLES AND FOOT CARE TIPS FOR FAMILIES, AVAILABLE EXCLUSIVELY AT THE LANDMARK MANDARIN ORIENTAL, HONG KONG

**Hong Kong, 13 May 2016** – The international foot care expert Bastien Gonzalez is on a mission to change the way society looks at feet – starting with his very youngest clients to avoid the problems that poor care can create over time.

Foot problems are not reserved for ladies wearing high heels and for sport players. According to Gonzalez, it is essential to prevent potential issues developing at an early stage due to supination or pronation of the foot.

When the cause is genetic, early detection is essential to avoid problems from getting worse. Between the ages of 5 and 14 years old, for instance, foot workouts and professional insoles can help to alleviate the pain and improve the situation.

In response to a growing number of requests from adult clients looking to extend their own experience of foot care at the exclusive PEDI:MANI:CURE Studio by Bastien Gonzalez at The Landmark Mandarin Oriental, Hong Kong, the pedi:podiatrist will soon introduce BGA InSoles® for Children.

The tailor-made insoles are the result of extensive podiatric research and are designed to bring comfort, reduce skin problems, and prevent foot by supporting each unique pair of feet through distributing all pressure precisely on the sole. Each pair of BGA InSoles® is tailor-made, thermoformed and personalised to perfectly fit heels, sport shoes and children's shoes.

The consultant, undertaken in a soothing spa setting, includes advice specially tailored for parents and children on footcare.

## Page 2

Bastien Gonzalez commented, "The importance of foot care from the youngest age is indispensable. There is an increasing trend of foot and backbone issues from the early childhood, for example, Vertebral Scoliosisos is often spontaneous, it may be due to irregularities of foot and a wrong walking posture in the long-term. A pair of custom-made BGA InSoles would allow daily rectification while there are several foot fitness essentials that one should follow."

Professional foot care advice will include professional recommendation of what shoes to purchase. Expensive shoes do not necessarily mean better shoes; it is important to know how to select a brand that combines performance and lightweight with different foot shapes.

The consultation will also include a tailor-made foot workout: Fitness Fetich is a workout for the toes designed by Bastien Gonzalez that helps relieve the pain caused by tight shoes, heels and standing on your feet all day long.

Gonzalez, often referred to as the 'foot virtuoso' and the 'Prince of naked feet', trains his certified podiatrists to follow strict guiding principles.
