Upon arrival, all guests are met in the reception area by the spa concierge who leads them to the separate men's and ladies' changing rooms. They are encouraged to arrive a minimum of 60 minutes prior to their scheduled treatment to fully immerse themselves in the spa's "heat experience": an amethyst steam room, experience shower, vitality pool and ice fountain for women, sauna and cold plunge pool for men. After enjoying the water treatments, guests await their treatments in separate men's and women's relaxation lounges, where they can unwind. At the conclusion of the treatment, guests are offered a complimentary choice of herbal teas or health beverages and escorted back to the Relaxation Lounge. Here, the subtle aroma of essential oils and meditative music allow the guest to float back to reality at their own pace.

Created exclusively by Mandarin Oriental to enrich their spa services, the signature Time Rituals are designed to restore one's natural state of equilibrium, and are performed in harmonious stages: welcome, purify, nurture, balance and bliss. In ancient times, people lived in balance with the rhythms of nature, understanding the individual's distinct relationship to the elements. Each Time Ritual journey starts with a soothing foot ritual during which the spa therapist assesses the guest's dosha and suggests appropriate aromatherapy oils to create balance and harmony. The individually tailored programs engage each of the five senses: sound, scent, sight, taste and touch. In addition to the foot ritual, the session may include exfoliation, various massage techniques and body wraps or a facial – together bringing harmony and well-being.

In addition to Time Rituals, a full array of spa services including massages, wraps, body scrubs, facials and other specialized treatments are available at The Spa at Mandarin Oriental, Washington DC. Manicures, pedicures, and hair-coloring and styling are also available in addition to strength training and physical therapy.
