

CHINA VISA

You will very likely need a visa for your trip to China (Guangzhou and Shanghai), please ensure you start your visa process early on as issuing such visa may take time. Hong Kong is a Special Administrative Region and each time you enter mainland China from Hong Kong, you will need a visa. If you apply for a single entry visa, please note you can only enter China once (i.e. you cannot exit from Guangzhou then go to Hong Kong before going to Shanghai, you will need a multi-entry visa for this).
