

THE  
MANDARIN SALON  
HONG KONG

**ENVIRON** skincare is a breakthrough range of products and treatments, devised by renowned plastic and reconstructive surgeon Dr. Des Fernandes from South Africa. It uses a tiered skincare system that gradually exposes skin to high levels of Vitamin A, antioxidants and peptides. This scientifically proven, vitamin-based treatment counteracts the harmful effects of the environment, pollution and stress to create radiant, visibly improved skin for you.

Each **ENVIRON** facial we offer is non-invasive using the DF II MACHINE, designed to stimulate maximum thickening of the skin, normalization, and improvement of the collagen and elastin. This in turn allows for better control of pigmentation production, restoration of normal skin blood flow and proper oxygenation of your skin. Environ's innovative system helps with the penetration of active vitamins and essential growth factors into your skin to provide fast and effective results.

## Optimal Skin Facial

90mins

HKD2,200\*

Designed to effectively treat a wide range of skin care concerns, this dynamic treatment provides intense penetration of active ingredients for visible results. Your facial begins with a pre-cleanser followed by applications of Lac Pam Gel, a clay mask and Vitamins A and C serums. Through the use of a DF II MACHINE, the serums penetrate using sound waves followed by iontophoresis, a technique of introducing ionic compounds into your skin by applying a local electric current, and an alginate mask to maximize the thickening, normalization and improvement of the collagen and elastin of the skin, improving pigmentation production, restoring blood flow, and proper oxygenation.

## Active Vitamin Therapy Facial

60mins

HKD1,600\*

This treatment is essential for the maintenance of healthy youthful skin. The most active forms of Vitamin A, C, and anti-oxidants are driven into the lower layer of your skin using the DF II MACHINE. This intensive treatment deeply hydrates while plumping and firming your skin.

## Vitamin Booster Facial

30mins

HKD1,200\*

Designed to target problem areas, this facial uses the Lac Pam Gel with active AHA's to achieve a deeper exfoliation. An infusion of Vitamin A or C is chosen to specifically target concerns such as fine lines around the eyes and lips, patches of pigmentation or scarring.
