Salt of the Earth Manicure and Pedicure

Salt of the Earth uses products from Utah, US, with a 72 Organic Trace Mineral Complex to deliver the most natural, effective treatments. Treatments are based on a customized mix of scrubs, creams and lotions tailored using your favourite essential oil. Individual mixes receive a booster shot of thermal powder, hyaluronic acid or anti-aging serum through the use of a specially designed “blend box”. This revolutionary system pre-ports treatments and can choose between four soothing aromatherapy or seasonal oils that are mixed by our therapist.

After nails are tended to, hands and feet are soaked in a warm water bath of mineral salts before dead skin is exfoliated away with the customized scented creamy scrub, then the luscious thermally activated hydrating Salt of The Earth treatment mask is applied to leave fingers and toes supple and silky smooth. Freshly groomed nails are then polished from a wide range of lacquer colours from OPI.

**Salt of The Earth manicure is priced at HKD500*
and pedicure is priced at HKD650*.**

Please enquire about our pricing on a series of treatments.

**To make a booking, please call 2825 4800 or email
mohkg-salon@mohg.com.**

*All prices are subject to 10% service charge.
