TRADITIONAL CHINESE MEDICINE

In Traditional Chinese Medicine (TCM), the body is seen as a delicate balance of two opposing and inseparable forces: yin (cold, slow or passive principle) and yang (hot, excited or active principle). TCM believes that health is achieved by maintaining the body in a “balanced state” and that disease is due to an internal imbalance of yin and yang. When the balance is broken, it leads to blockage in the flow of Qi (vital energy) along pathways known as meridians. The treatments under TCM work on restoring this balance in the body.

CHINESE MERIDIAN MASSAGE

1 hour or 1 hour 30 minutes

Focusing on acupressure points and the subtle energy channels influencing the directional flow of Qi in the body, Chinese Meridian Massage can help treat many conditions.

NB: Cupping may also be included within the treatment time if your particular condition requires this.

CHINESE FOOT REFLEXOLOGY

1 hour or 1 hour 30 minutes

The ancient art of reflexology involves gentle stimulation of the foot's acupressure points, which are directly linked to various organs and glands in the body. A relaxing treatment with therapeutic benefits.

CHINESE DOCTOR CONSULTATION

45 minutes

In order to strengthen and optimise overall health, our Chinese doctor will consult personally with you on your specific areas of concern. Herbs and a treatment programme will be prescribed for you, which may include the following elements:

Acupuncture

It is believed that there are 12 main meridians and 8 secondary meridians, and that there are more than 2,000 acupuncture points on the human body that connect with them. Our specialist will work on these areas based on your body's individual needs and concerns.

Bone Setting

Bone setting is an ancient art of healing through bone manipulation. It is the predecessor to modern chiropractic therapies and osteopathy. It may be more effective than mild exercise and physiotherapy to treat certain conditions. Our specialist will tailor the session after assessing your individual needs.

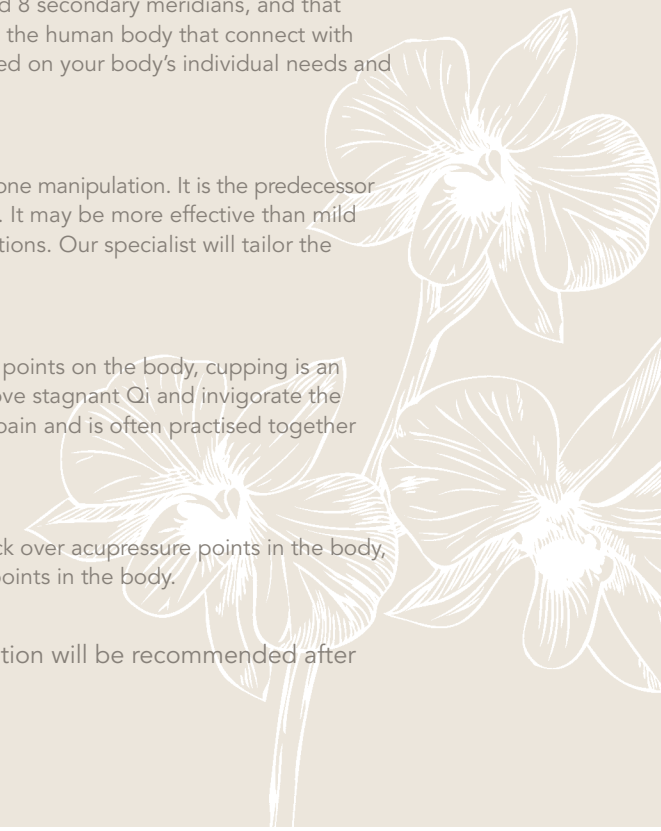

Cupping

Using light bulb shaped jars suctioned to various points on the body, cupping is an ancient form of therapeutic massage, helping move stagnant Qi and invigorate the system. Cupping can be used to relieve arthritic pain and is often practised together with acupuncture and massage.

Moxibuxtion

A technique involving the burning of a herbal stick over acupressure points in the body, to dispel cold, promote circulation and activate points in the body.

The choice of techniques and their combination will be recommended after consultation with the Chinese doctor.

PRE AND POST-NATAL

MELLOW MUMMY

1 hour or 1 hour 30 minutes

A pregnancy massage that uses the healing benefits of rose oil to balance hormones and even emotions, and rejuvenate the skin. Using techniques designed to improve lymphatic drainage, and help reduce swelling and discomfort.

BODY AND BUMP

1 hour 30 minutes

This luxurious massage for mothers-to-be uses rose-scented oils and body balms to deeply nourish the skin, aiding the prevention of stretch marks and soothing fluid retention. Your treatment ends with a hydrating facial and hair mask.

NB: pre-natal treatments are performed on a revolutionary pregnancy comfort cushion, using only all-natural ingredients. They are not suitable for ladies in their first trimester.

MUMMY'S MOMENTS

1 hour or 1 hour 30 minutes

The soothing 60-minute "Mummy's Moments" post-natal treatment uses traditional Malaysian massage techniques, to ease muscle soreness and support the restoration of the mother's figure. For the 90-minute treatment, you can choose to include abdominal binding to help relieve tenderness, using an abdominal binding corset that protects the integrity of your womb. An ancient post-natal herbal remedy is then applied to aid water reduction, detoxify and to help the body heal and recover naturally.
