## TREATMENTS

Biologique Recherche treatments complement Mandarin Oriental's philosophy of physical, emotional and mental wellbeing. The first step of Biologique Recherche's Methodology, is an analysis to identify your skin's condition at any given time, known as Skin Instant®. The scientific skin analysis is performed with the help of Skin Instant® Lab, followed by a 1 hour, 1 hour 30 minutes or 2 hours treatment of your choice..

### **SKIN INSTANT® LAB**

30 minutes

A preliminary step in each treatment, the Skin Instant® Lab is a dermo-cosmetic diagnosis system that utilizes five probes that measure skin hydration, trans-epidermal water loss, elasticity, pigmentation and sebum levels. The system will decode the results and recommend, along with a skilled aesthetic technician, a specific skin treatment plan according to your skin type and conditions.
