

LET US TAKE YOU ON A JOURNEY...

Welcome to Afternoon Tea at Mandarin Oriental, New York's Lobby Lounge. Our Afternoon Tea experience is one that will celebrate where you are – at the Mandarin Oriental, known for our Asian Heritage, and also in New York City, a city renowned for its culinary delights. We would like to take you around the world, beginning in Asia, journeying through Europe and America, and returning, full circle, to Asia.

Our journey begins in the East, where our teas are sourced exclusively from Asia, with blends from Japan, India, Ceylon and China. Using only the finest sources, each tea has been selected to elevate your mood and experience. Choose from an array of artisanal teas, ranging from invigorating, caffeinated choices to relaxing and soothing green and herbal selections.

We then move west to England, renowned for Traditional Afternoon Tea. Inspired by the time-bound tradition of scones and tea, we offer you our homemade signature Ginger Scones, baked fresh daily, and only available with Afternoon Tea Service. Our scones are presented with the traditional accompaniments of English Devonshire Cream, Seasonal Jams made by our pastry chefs.

Our next stop is New York, a culinary destination in and of itself! Innovative and creative, our Tea Sandwiches are inspired by our eclectic city and are a reinvention of classic tea sandwiches with a dynamic twist. Our Egg Salad Sandwich is inspired by the great tradition of deli sandwiches, while our Watercress and Burrata Cheese represents all the Union Square Green Market has to offer. We use locally sourced ingredients to create a selection of exciting sandwiches with bold and adventurous flavors.

Finally, our journey brings us back to Asia – we end the tea service with a choice of Asian-inspired treats and desserts including as a green tea financier and Passion fruit meringue tart to round out your experience.

OUR TEA SELECTION

Mandarin Oriental Signature Tea

Rose of New York

High Caffeine

Blended exclusively for Mandarin Oriental New York, this floral Ceylon black tea blend is accented with rose, the official flower of New York State.

White Tea

Organic Jasmine Pearl

Low Caffeine

A true white tea, hand-picked, meticulously perfumed, and then sorted twice (by size) in the mountainous Fuding, Fujian Province of China. This selection has an intoxicating aroma of jasmine blossom.

Green Teas

Long Life Green

High antioxidants and low caffeine.

Enlighten with anti-oxidant rich, pure green tea. This tea has a fresh aroma with hay notes. Antioxidant-rich Organic Long Life Green supports health and inspires balance in a fast-paced world.

Lychee Green

Low Caffeine

Native to the Guangdong and Fujian provinces of China, Lychee offers a sweet and nutty, enveloping floral bouquet that is soft and exotically mellow on the palate. The Master Blender suggests steeping this particular Chinese green tea for a mere 45 seconds to capture all of the intense floral taste.

Oolong Tea

Mandarin Oolong

Medium Caffeine

Grown in the ancient mountains of San Lun Shih, Taiwan, this Tung Ting oolong undergoes a short fermentation to refine the flavor and orchid character. Grown at 800m elevation, the Tung Ting region of Taiwan is typically covered by fog and clouds which facilitates the concentration of flavor. Our Master Blender infuses this highly prized “Frozen Summit” oolong with the essence of Mandarin for a subtle citrus finish.

Imperial Oolong

High complexity and medium caffeine.

The Dragon signifies noble strength and imperial power while its red hue is associated with the Fire element. What a perfect match for the sophisticated palate of Organic Imperial Oolong with its estate leaves, hand-picked at dawn to capture flavor at its peak with floral notes of orchid..

Black Tea

Imperial English Breakfast

High Caffeine

Blended true to the origin of “English Breakfast,” our connoisseur grade is primarily China Keemun tea. Known as the Burgundy of the tea world, Keemun is prized for its wine-like, full-bodied character, combined with an exquisite orchid-like aroma. A hint of Ceylon black tea is added to sweeten this traditional cup.

Imperial Earl Grey

High Caffeine

Tealeaves premium Earl Grey blend of Ceylon, India and China estate black teas with a hint of natural, cold-pressed bergamot. Prized for its uplifting and restorative properties, it is a cup of liquid sunshine!
