## terms and conditions

### age requirements

For the ages 6 to 15, a signed parental consent must be completed and a parent or legal guardian must be in the treatment room.

### tailored to children

There are certain modifications that need to be made for children's treatments for both safety and enjoyment and the following guidelines need to be followed.

### recommendations

Due to the constant change in a child's body as they grow, we recommend that all massage treatments are kept to a short timeframe varying on age:

- Child 6-9 years old                      a treatment of 30 minutes
- Kid to Teen 10-15 years old        a treatment of 40-60 minutes

### accompanied child

All children under 16 years of age must be in the company of a parent or guardian for the whole duration of their spa experience. If the parent or guardian leaves the treatment room for any reason, the child's treatment is to be stopped and the therapist is to leave the treatment room, only to continue again upon the return of the parent or guardian.
