

BLOOM INTO SUMMER

Bloom relates to the Chinese element of fire and the summer season. This element inspires a capacity for love and intuition. Sensual and generous, it brings feelings of sincerity and joy and allows for deeper communication.

The acupuncture meridians worked upon in our **Oriental Qi Bloom** hands on body treatment that combines the powerful effects of oriental meridian massage with lighter pressure where focus is placed upon the small intestine and heart meridians. This experience is amplified using a blend of sensuous ylang ylang and precious rose encouraging joy, intimacy, and emotional release, while chamomile soothes.

For the early summer months May, June, and July upon booking of **"Bloom into Summer"** you will receive a complimentary Bloom Bath and Shower Oil 60ml.
