"In the first half of 2024, the Group's RevPAR grew by 5%, driven by growth in all regions. 12% growth in Asia was notable, as our hotels in the region benefitted from returning travel demand. The majority of our hotels built on their market-leading positions and increased revenue share in the period.

We added two beautiful and strategic hotels to our portfolio – in Mayfair and Muscat, and successfully rebranded our first flag in Riyadh. We are very confident in the fundamentals of our business and our prospects for continuing our development into a brand-led, guest centric, global luxury hospitality business."

(1) Combined revenue includes turnover of the Group's subsidiary hotels in addition to 100% of revenue from associate, joint venture and managed hotels.

(2) EBITDA of subsidiaries plus the Group's share of EBITDA of associates and joint ventures.

(3) The Group uses 'underlying profit' in its internal financial reporting to distinguish between ongoing business performance and non-trading items, as more fully described in note 7 to the condensed financial statements. Management considers this to be a key measure which provides additional information to enhance understanding of the Group's underlying business performance.

(4) At 30th June 2024 and 31st December 2023, respectively.

(5) The Group's investment properties are carried at fair value on the basis of valuations carried out by independent valuers at 30th June 2024 and 31st December 2023. The other freehold and leasehold interests are carried at amortised cost in the consolidated balance sheet. Both the adjusted net asset value per share and net debt/adjusted shareholders' funds for 30th June 2024 and 31st December 2023 have included the market value of the Group's freehold and leasehold interests which were appraised as at 31st December 2023.

The interim dividend of US¢1.50 per share will be payable on 16th October 2024 to shareholders on the register of members at the close of business on 23rd August 2024.

2024 HALF-YEAR PERFORMANCE

The combined total revenue of hotels under management in the first half of 2024 was US\$980 million, a 11% increase on the same period last year, boosted by the re-opening of *Mandarin Oriental, Singapore* and the opening of four new hotels: in Costa Navarino, Zurich, Mayfair and Muscat. Combined total revenue growth (excluding new hotels and re-openings) was 5%. Consolidated revenue reduced due to the disposals of our hotel properties in Jakarta and Paris.

The Group's RevPAR grew from last year by 5%, and all regions recorded an improvement. Asia delivered growth of 12%, driven by both occupancy and rates. Our hotels in Europe, the Middle East and Africa ('EMEA') achieved a modest increase, due to continued strength in

leisure demand and occupancy. In America, our hotels were able to achieve a 3% improvement driven by growth in corporate occupancy.

In the period, the majority of our hotels built on already market-leading positions and improved their revenue share.

In June 2024, we released our 2023 Sustainability report, which tracked our progress made in reducing energy intensity, reducing waste, pursuing responsible sourcing and supporting communities.

In July 2024, we celebrated the topping-out of *One Causeway Bay*, our Grade A office development, which is due to be completed by the second quarter of 2025. We have also announced the enhancement of the *Landmark Mandarin Oriental, Hong Kong*, introducing new dining concepts and exquisite craftsmanship to accommodation, to set a new benchmark for ultra-luxury hospitality in the heart of Hong Kong.

FINANCIAL PERFORMANCE

The Group reported an underlying profit of US\$23 million in the first half of 2024, compared to US\$28 million in the same period in 2023. The 2023 results benefitted from a non-recurring tax credit of US\$5 million in *Owned Hotels*.

The underlying profit of the *Management Business* was US\$14 million, reduced from US\$16 million in the equivalent period last year, as higher fee income was offset by timing differences in marketing spend.

The underlying profit of *Owned Hotels* was US\$11 million, compared with US\$14 million in 2023. There were higher contributions in 2024 from Singapore after its re-opening in September 2023, as well as from Tokyo and Madrid.

In April 2024, the Group completed the disposal of the hotel portion of its Paris property for US\$221 million, with a loss on disposal of US\$37 million. A new long-term hotel management contract has been agreed together with a renovation plan to strengthen the positioning of Mandarin Oriental in Paris. In June 2024, the Group signed a contract to sell the retail portion of its Paris property for US\$160 million. This transaction was completed in July 2024, and the

Group has recognised a US\$56 million gain on disposal. Proceeds from both transactions have been applied to reduce debt.

The valuation of *One Causeway Bay* was broadly flat compared to 31st December 2023. As we continued to invest in construction, the project recorded a non-trading loss of US\$37 million.

Total losses attributable to shareholders were US\$52 million in the first half of 2024, compared to losses of US\$69 million in the same period last year.

Net debt at 30th June 2024 was US\$110 million, down from US\$225 million at the end of 2023, primarily due to the receipt of sale proceeds from the Paris hotel property. The Group remains well funded, with more than US\$619 million in cash and undrawn committed facilities. Gearing as a percentage of adjusted shareholders' funds was 2%, reduced from 5% at the end of last year.

An interim dividend of US\$1.50 per share has been declared.

DEVELOPMENT

In January 2024, the Group rebranded *Mandarin Oriental Al Faisaliah, Riyadh* – its first flag in Saudi Arabia. In June 2024, we opened two new hotels – *Mandarin Oriental Mayfair, London*, located in the heart of London's art and fashion district, and *Mandarin Oriental, Muscat*, which offers unobstructed views of the Gulf of Oman. These openings bring the number of Mandarin Oriental hotels to 40 and mark a significant milestone in our growth journey. *Mandarin Oriental Qianmen, Beijing*, our second property in Beijing, is scheduled to open later this year, complementing our already market-leading *Mandarin Oriental Wangfujing, Beijing*.

Since the start of the year, the Group has announced two new management contracts: a unique hotel housed within meticulously restored 19th-century villas in the centre of Rome, and a secluded beachfront resort and residences on Bali's southern coast on the Bukit peninsula. These additions expand our development pipeline to 30 hotels, resorts and standalone residences projects globally. We remain focussed on accelerating our global expansion.

As announced by the Company on 16th July 2024, a number of changes have been made to the composition and operation of the Company's Board and Committees to reflect our ongoing focus on evolving the governance framework for the Group to support the effective operation of our business.

OUTLOOK

While the global economic landscape remains uncertain, we continue to have confidence in the outlook for luxury hospitality in the long term. The strength of our Brand, the size of our pipeline and our Legendary Service proposition are all meaningful competitive differentiators and provide excellent foundations for growth. We will remain focussed on growth and quality

and will continue our development into a brand-led, guest-centric, global luxury hospitality business.

Fair value estimation

(i) Financial instruments that are measured at fair value

For financial instruments that are measured at fair value in the balance sheet, the corresponding fair value measurements are disclosed by level of the following fair value measurement hierarchy:

(a) *Inputs other than quoted prices in active markets that are observable for the asset or liability, either directly or indirectly ('observable current market transactions')*

The fair values of derivative financial instruments are determined using rates quoted by the Group's bankers at the balance sheet date. The rates for interest rate swaps and caps and forward foreign exchange contracts are calculated by reference to market interest rates and foreign exchange rates.

The fair values of unlisted investments mainly include club and school debentures, are determined using prices quoted by brokers at the balance sheet date.

15. FINANCIAL INSTRUMENTS (*CONTINUED*)Fair value estimation (*continued*)(i) Financial instruments that are measured at fair value (*continued*)(b) *Inputs for assets or liabilities that are not based on observable market data ('unobservable inputs')*

The fair values of other unlisted investments are determined using valuation techniques by reference to observable current market transactions (including price-to earnings and price-to book ratios of listed securities of entities engaged in similar industries) or the market prices of the underlying investments with certain degree of entity specific estimates or discounted cash flow by projecting the cash flows from these investments.

There were no changes in valuation techniques during the six months ended 30th June 2024 and the year ended 31st December 2023.

The table below analyses financial instruments carried at fair value at 30th June 2024 and 31st December 2023, by the levels in the fair value measurement hierarchy:

	Observable market current transactions US\$m	Unobservable inputs US\$m	Total US\$m
30th June 2024			
<i>Assets</i>			
Other investments	<u>5.6</u>	<u>8.2</u>	<u>13.8</u>

Derivative financial instruments at fair value - through other comprehensive income	<u>2.4</u>	<u>-</u>	<u>2.4</u>

There were no transfers among the two categories during the six months ended 30th June 2024 and the year ended 31st December 2023.

15. FINANCIAL INSTRUMENTS (*CONTINUED*)Fair value estimation (*continued*)(i) Financial instruments that are measured at fair value (*continued*)

Movement of financial instruments which are valued based on unobservable inputs during the six months ended 30th June 2024 and the year ended 31st December 2023 are as follows:

	Unlisted investments US\$m
At 1st January 2024	8.4
Disposals	<u>(0.2)</u>

At 1st January 2023	8.0
Additions	<u>0.4</u>
At 31st December 2023	<u>8.4</u>

(ii) Financial instruments that are not measured at fair value

The fair values of current debtors, bank and cash balances, current creditors, current borrowings and current lease liabilities are assumed to approximate their carrying amounts due to the short-term maturities of these assets and liabilities.

The fair values of long-term borrowings are based on market prices or are estimated using the expected future payments discounted at market interest rates. The fair values of non-current lease liabilities are estimated using the expected future payments discounted at market interest rates.
