

THE BAMBOO BAR

The Bamboo Bar is a landmark that personifies the passion, seductive elegance and spirit of both The Oriental Hotel and Bangkok's rich history.

From humble beginnings in 1953 in what is now the hotel's renowned Authors' Wing, The Bamboo Bar grew in size and reputation to become an international legend.

In late 2014, the bar closed for an extensive renovation, intended to propel this iconic establishment into the future whilst preserving its unique history and unique character. Welcome to The Bamboo Bar.

Monday – Saturday from 5pm until 8pm, enjoy a specially curated list of aperitif cocktails along with a selection of appetisers

SINGLE MALT WHISKIES

The world of Single Malt Whiskies is a fascinating one; all under binding rules, yet still carrying their own character and history.

We have split our Single Malt Whiskies into their distillery bases for your convenience. Although whiskies from the same region carry different characteristics, similarities can be found in the flavour profile due to distilleries sharing the same water supply.

For your reference, we've provided a brief background for each of the regions that are represented in our collection.

SPEYSIDE

Speyside whiskies are often the most popular, as they are generally smooth and easy to drink. The flavours can vary due to the finishing barrel in which they are aged, but can generally be classified as either light and grassy, or rich and sweet.

HIGHLAND

The largest in both geographical area as well as production of single malt whiskies, the Highlands house some of Scotland's most famous distilleries. Highland whiskies are usually smooth with subtle spice notes and the occasional hint of smoke.

ISLAY

The whiskies of the distilleries along the south-eastern coast of the island have a smoky character derived from peat, which is considered a central characteristic of Islay malts, and ascribed both to the water from which the whisky is made and to the peat levels of the barley. They also possess notes of iodine, seaweed and salt.

ISLAND

The whiskies produced on the Islands are extremely varied with few similarities, though can often be distinguished from other regions by have a smokier flavour with peaty undertones.

LOWLAND

Lowland has the fewest distilleries to land ratio of all the regions. This are commonly uses the method of triple-distillation, giving the whiskies from the Lowland a lighter taste.
