LED LIGHT THERAPY

The perfect fusion between Science and Nature.

If you look at all the aesthetic technologies available on the market, LED is possibly the most versatile, easy to use and friendly for all skin types. It is a healthy non-invasive and painless treatment for your skin and body in general.

LED light radiates wavelengths that deliver energy to your cells so they work optimally and function at peak performance.

With scientific evidence and developed by NASA, LED light therapy stimulates the production of collagen and elastin, activates circulation and accelerates tissue repair.

Additionally, it has a deep effect on the circulatory system and tissues through reactions triggered by wavelengths of light. Ultimately, it creates a satisfying feeling for health and well-being.

● BLUE LED LIGHT (420 NM)

Acne management

Treats acne-prone areas to reduce and prevent acne causing bacteria, acne breakouts and inflammation for a clearer, brighter complexion.

● GREEN LED LIGHT (520 NM)

Skin Tone correction

LED pigmentation correction effectively fades and removes age spots, sun spots and discoloration to improve overall skin tone, balance and radiance.

● YELLOW LED LIGHT (590 NM)

Redness reduction

Strengthens vascular networks, soothing rosacea and detoxifying skin redness and irritation.

● RED LED LIGHT (633 NM)

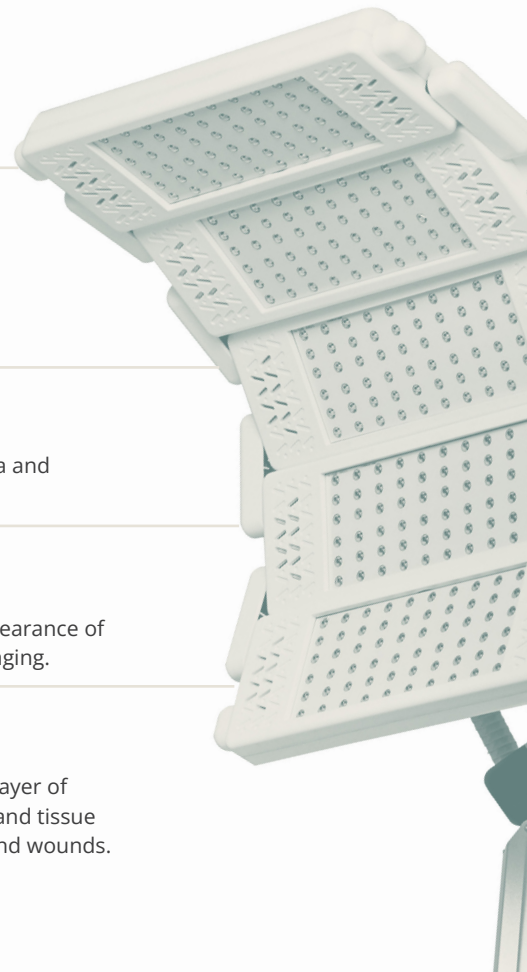

Age management

Stimulates collagen and elastin to reduce the appearance of superficial wrinkles, fine lines and other signs of aging.

● INFRARED LED LIGHT (830 NM)

Dermic reparation

LED dermal repair penetrates the subcutaneous layer of the skin stimulating blood flow and reduces skin and tissue inflammation by speeding up healing of lesions and wounds.

Natural beauty at your fingertips

The Light Bar Salon was born to be a space dedicated exclusively to the health and well-being of the skin. Great results achieved in a short space of time with the coolest and most beneficial ingredient of the moment, light.

In addition, the concept of 'light bar' to add, according to needs, the most cutting-edge cosmeceutical and with the highest concentrations of active ingredients.

PRO-Aging Philosophy

Accepting the pass of the time, by celebrating the real age is a true new trend in the world of beauty. This movement that is beginning to be generated internationally, approaches beauty from a deeper and more real vision of people. It promotes beauty beyond age and advocates a healthy and honest vision of conveying how to fill yourself with beauty, age and health.

This is the new perception that inspires how we work at The Light Bar Salon to achieve the best results and guarantee the well-being of the skin.
