

MANDARIN ORIENTAL, BARCELONA WELCOMES MIRIAM QUEVEDO'S FIRST HAIRSPA STUDIO

Hong Kong, 26 April 2019 – [Mandarin Oriental, Barcelona](#) is now the home to the world's first [Miriam Quevedo HairSpa Studio](#). Available at [The Spa at Mandarin Oriental, Barcelona](#), the exclusive hair and scalp service will offer the luxury cosmetic brand's own customised anti-aging haircare rituals, blowouts and express treatments, using its products.

Each [Miriam Quevedo Exclusive Anti-aging Haircare Ritual](#) includes a complete hair and scalp analysis, using an iMicro-camera, to assess each guest's exact needs. The camera allows the expert technician, trained in trichology by Miriam Quevedo herself, to take a magnified view of the hair and scalp which can also be viewed by the client using a tablet. The technician measures seven points including hair loss status, scalp status, hair density, keratin of scalp, exposure of scalp's vessels, hair thickness and hair pore status. Following the analysis a customised ritual will be selected using products formulated with potent vitamins, cutting-edge peptides, botanicals and other precious ingredients to address the specific needs of each client, repair damage and restore youthful radiance to hair.

The relaxing experience combines a pre-treatment scrub, cleansing and transformation (mask, oil, and shock treatment) with a scalp, neck, arm and shoulder massage. Finishing protection and professional blowout for a perfectly styled look completes each ritual.

In addition to the full ritual, the Spa also has a selection of **20-minute express treatments by Miriam Quevedo** that guests can enjoy while having a facial or massage. Each treatment is customised depending on hair type, from the **Golden Opulene**, ideal for normal-to-thick hair to the **Diamon Decadence**, specially designed for those with normal-to-fine hair. Finally, an **Eyebrow Rejuvenating Treatment** is also available to give eyebrows fullness and lustre followed by a make-up application to fill and shape eyebrows.
