MANDARIN ORIENTAL, HONG KONG – TECHNOLOGY

Mandarin Oriental, Hong Kong offers the ultimate in guest-centric [technology](#). Recognising the technological sophistication of today’s travellers, Mandarin Oriental continues to lead the hospitality industry’s digital revolution, and has invested significant research and effort in supplying Mandarin Oriental, Hong Kong with the most advanced technology available, ensuring that the hotel boasts a bespoke in-room entertainment system that is user-friendly. The hotel offers some of the first and finest high-definition channels in Hong Kong.

Each of the hotel’s [499 rooms and suites](#) has a built-in state-of-the-art entertainment system that includes a high definition television, with sizes ranging from 48 to 60 inches. The system is controlled centrally through a single remote control and on-screen menus. It offers extensive complimentary range of 80 television channels.

Wireless Bluetooth speakers are also available in the guest rooms where guests can enjoy premium music from almost any device. High-quality Wi-Fi Internet access is offered throughout the property and, for the optimum in relaxation, an LCD television has been installed in each of the oversized bathrooms.

The rooms’ entertainment systems are complemented by an auxiliary panel located in the guestroom desk, which allows guests to power up their own equipment. USB charging stations are available on the desk and bedside table. It provides sufficient charging power to the your equipment. A technology kit containing a range of commonly used cabling has also been placed in each of the rooms to take the stress out of travelling.

Further in-room enhancements include easy access to hotel billing via the LCD television, together with SMART lighting and temperature controls that record guests’ preferences so that, on their return, the room is exactly as it was left.
