MANDARIN ORIENTAL, JAKARTA - MEETING AND EVENT FACILITIES

[Mandarin Oriental, Jakarta](#) has just finished renovating its events and meetings facilities to perfectly suit the needs of event planners and wedding organisers as well as guests. Cleverly combining cultural history, modern design and hi-tech features, the new facilities on the hotel's third floor occupy a 900-square-metre space. It comprises seven meeting rooms with natural light, a ballroom with a pre-function area overlooking the city's Bundaran Hi, and an outside balcony meeting venue.

As the most centrally located venue in the city the hotel offers the perfect setting for high-level business meetings or an intimate, personal occasion. [Meeting and banqueting facilities](#) occupy the entire third floor of the building with separate access, allowing more privacy and comfort, perfect for VIP arrivals. A permanent breakout area is also available, giving delegates a private space with a residential feel.

All the meeting rooms feature state-of-the-art technology and are decorated in a refined Southeast Asian theme complemented by natural daylight. The escalators leading to and from this level have been cleverly concealed by a fretwork screen decorated with bold, indigenous patterns.

The Ballroom

Covering nearly 600 square metres, the Ballroom is Jakarta's prime venue for social, corporate and diplomatic functions. Along with a private area and a dedicated large foyer, the Ballroom is perfect for medium-sized functions of up to 250 people seated for a conference, 340 for a banquet or 800 for a cocktail reception. It can also be divided into three individual areas for smaller and more intimate functions.

-more-

Located on the third level, the banquet and meeting rooms are connected by a pre-function space with side windows to allow for natural light overlooking the historical welcome monument.

The Ballroom décor is a blend of traditional elegance and a touch of Asian flair, with high, sweeping ceilings and crystal chandeliers. The room offers a regal affluence with subtle Oriental charm.

The Boardroom and Meeting Rooms

As befitting the corporate purposes of these spaces, the design style and colour palette of these rooms are subdued and sophisticated with windows offering a view and ample natural light. The hotel's Oriental heritage is reflected in the bold presence of local handicrafts, together with various art pieces by prestigious local artists that give an overall rustic elegance.

The spacious Boardroom, equipped with a 60 inch LCD television is very comfortable for up to 30 persons in classroom style. With its own in-room breakout area, this is the perfect setting for a meeting requiring a discreet environment.

The Tanjung Rasamala rooms are twin venues located next to the Boardroom. This is an ideal space for smaller groups looking for an intimate surrounding. Each of the rooms can accommodate up to 110 guests in theatre style, while the combined rooms allow more space for corporate trainings, seminars or dinners.

The Esquire Room is located next to the Tanjung Rasamala rooms and is the most unique of the hotel's spaces. This residential style space has its own private pre-function area, an outdoor balcony and a state-of-the-art kitchen area, making it an ideal venue for private hosting and other social functions.

Mandarin Oriental, Jakarta also offers award-winning restaurants and a bar, each embellished with its own charm and characteristics, and ideal to cater to special, exclusive social functions fit for all types of clientele.

Cinnamon

Cinnamon is a lively and contemporary restaurant that takes guests on a journey through the Orient, serving Asian and international dishes. The restaurant can seat 162 guests, including in the lower section, which alone can cater to 50 guests.

Lyon

Lyon is a French restaurant, serving authentic dishes prepared with the freshest ingredients, which can seat up to 97 guests and up to 120 for a cocktail reception. The restaurant has two elegant and unique private dining rooms, The Glass Room and The Beaujolais.

The Glass Room is uniquely located between two glass-walled wine cellars and complemented by a large floor-to-ceiling glass window overlooking the lobby area, and can accommodate up to 12 guests.

The Beaujolais is adorned with sheer white shades, an elegant chandelier and a solid black long table to seat up to 16 guests.

MO Bar

MO Bar is a perfect venue for socializing on all occasions, with a rich and welcoming design and windows overlooking the main Jakarta thoroughfare.

The bar can cater to up to 150 guests for a cocktail reception and seats 80 guests in its regular set-up.
