THE LANDMARK MANDARIN ORIENTAL, HONG KONG LAUNCHES RESULTS DRIVEN TOP-TO-TOE ‘PEDI:FACIAL’

Hong Kong, 10 May 2018 – [The Oriental Spa](#) at [The Landmark Mandarin Oriental, Hong Kong](#) has launched a new spa treatment that combines two therapies to reveal a ‘New You’. The *Pedi:Facial Transformation* treatment combines acclaimed French podiatrist Bastien Gonzalez’s signature foot care and a revolutionary non-surgical, non-intrusive alternative to a cosmetic facelift from leading German brand SEYO, which delivers intensive deep skin therapy.

The 60-minute *Pedi:Facial Transformation* treatment, at HKD2,400 (plus 10% service charge), takes place in the hotel’s [Spa](#) and starts with an assessment by two expert spa therapists who identify a guest’s personal needs. Ideal for busy people, the pedicure and facial are synced to maximise benefits.

Known as the “foot virtuoso”, Bastien’s world-famous BGA Pedicure is reputed as much for its medical benefits as for providing nail beauty and a relaxing, restorative foot massage. The pedicure includes reshaping and polishing toenails and skin with scalpels, lancets and drills, buffing with a chamois leather (a technique passed down to Gonzalez by his grandmother), and finishing with diamond dust paste and chemical-free varnish to give each nail a healthy shine.

Favoured by celebrities and other wearers of stilettos and high heels, the BGA Pedicure received the Prestige Beauty & Spa Award in 2017 and The World’s Best Pedicure *by Forbes Lifestyle* in 2015.

The SEYO Transdermal Application (TDA) treatment ensures active serums are safely absorbed deep below the surface of the skin on the face, neck and décolletage, without even touching. Using patented mechanical and bioengineering technology, the entirely painless, treatment is ideal for all skin conditions and especially recommended for mature, dull or damaged skin.

-more-

The SEYO TDA starts with a double cleanse, followed by a personal assessment and gentle micro-dermabrasion (removing dead skin cells with crystals and a vacuum) using three sapphire-tipped instruments. Then, a wand-like, contactless applicator pulsating with pure oxygen gently propels active serum from a few centimeters above the surface of the skin, so that it penetrates to the deepest layers of the skin. The oxygen and active ingredients combat hypoxia (oxygen deficiency) in the skin, reactivate natural beauty, texture and luminosity, and smooth away lines. Intense hydration improves microcirculation, strengthening and regenerating cells and tissues while it soothes, moisturises and rejuvenates. The results are immediately visible and long-lasting.

“Regularly adding cutting-edge, revolutionary new services, such as SEYO TDA, keeps us at the foreground of the world’s very latest spa and wellness advancements, reinforcing our position as the leading holistic and wellness spa in Hong Kong,” says Director of Spa & Wellness at The Landmark Mandarin Oriental, Hong Kong, Jessica Sardo.

Available until 31 July 2018, the *Pedi:Facial Transformation* treatment package also includes complimentary use of The Oriental Spa’s award-winning heat, water and relaxation facilities.

For reservations and further information, please call The Oriental Spa on +852 2132 0011, email lmhkg-spa@mohg.com or visit <http://www.mandarinoriental.com/landmark/spa>. For those wishing to indulge further and stay at the hotel, information regarding room packages can be found [here](#).
