MANDARIN ORIENTAL, TOKYO FACT SHEET

SUMMARY:

With its superb location in the city's prestigious financial district, Mandarin Oriental, Tokyo brings contemporary elegance to Nihonbashi, the historical and cultural centre of Tokyo commerce. True to its surroundings, the first Mandarin Oriental hotel in Japan dynamically blends the best of past and future architectural splendour. It is graced with spacious guest rooms, an oasis-like, fabulously well-appointed award-winning spa, and paradigm-setting bar and restaurants situated upon the uppermost floors of the soaring Nihonbashi Mitsui Tower. In addition, stately banquet and conference facilities reside within the Tower's impressive atrium podium and adjacent Mitsui Main Building, an important cultural property.

LOCATION:

Overlooking the Mount Fuji to the west and TOKYO SKYTREE to the east, the opulent hotel's central location has direct subway access via Mitsukoshi-mae Station on the Ginza and Hanzomon line to all major points of the city. In addition, Tokyo Station, the world-renowned Ginza shopping district, and the Tokyo Stock Exchange are all within 5–10 minutes' walking distance.

Also just a stone's throw from Mandarin Oriental, Tokyo is the celebrated 'Bridge of Japan' from which Nihonbashi derives its name. At one time, this was the traditional 'Kilometer Zero' officially designating one's arrival in the capital. Japan's major financial, insurance and securities firms grew around this landmark, along with many traditional shops, shrines and galleries. Tokyo International Forum, a convention and performing arts centre, and

another landmark itself, is only a five-minute drive away, while historical edifices such as the famous oldest department store in Japan, Nihombashi Mitsukoshi Main Store, and Bank of Japan, are just steps away from the hotel.
