MASSAGE

ORIENTAL ESSENCE

This full body massage uses Swedish and Eastern techniques to relax and ease muscle tension. The focus of this massage is based on today’s key problem areas, neck and shoulders, to help “reset” the body for a good night’s sleep and to stay alert during the day. To further stimulate the body’s natural healing process, reflex points on the feet are incorporated.

Perfect if you are looking to remove yourself from reality for a short time both physically and mentally. The pressure during this massage flexes to your needs.

THERAPEUTIC

This treatment is ideal for those looking to work on deep set tension or tight over exercised muscles. With the use of thumbs, forearms, knuckles and elbows, this massage will seek the trigger points of the muscle to help regain motion and alleviate pain.

The areas of concentration will be discussed with your therapist and is suitable for guests that are comfortable with an intense massage.

Booking times of 1 hour or 1 hour 30 minutes available.

In Traditional Chinese Medicine (TCM), the body is seen as a delicate balance of two opposing and inseparable forces: yin (cold, slow or passive principle) and yang (hot, excited or active principle). TCM believes that health is achieved by maintaining the body in a “balanced state” and that disease is due to an internal imbalance of yin and yang. When the balance is broken, it leads to blockage in the flow of Qi (vital energy) along pathways known as meridians. The treatments under TCM work on restoring this balance in the body.

**CHINESE MERIDIAN MASSAGE**  
1 hour or 1 hour 30 minutes  
Focusing on acupressure points and the subtle energy channels influencing the directional flow of Qi in the body, Chinese Meridian Massage can help treat many conditions.  
*NB: Cupping may also be included within the treatment time if your particular condition requires this.*

**CHINESE FOOT REFLEXOLOGY**  
1 hour or 1 hour 30 minutes  
The ancient art of reflexology involves gentle stimulation of the foot’s acupressure points, which are directly linked to various organs and glands in the body. A relaxing treatment with therapeutic benefits.

**CHINESE DOCTOR CONSULTATION**  
45 minutes  
In order to strengthen and optimise overall health, our Chinese doctor will consult personally with you on your specific areas of concern. Herbs and a treatment programme will be prescribed for you, which may include the following elements:

- **Acupuncture**  
  It is believed that there are 12 main meridians and 8 secondary meridians, and that there are more than 2,000 acupuncture points on the human body that connect with them. Our specialist will work on these areas based on your body’s individual needs and concerns.

- **Bone Setting**  
  Bone setting is an ancient art of healing through bone manipulation. It is the predecessor to modern chiropractic therapies and osteopathy. It may be more effective than mild exercise and physiotherapy to treat certain conditions. Our specialist will tailor the session after assessing your individual needs.

- **Cupping**  
  Using light bulb shaped jars suctioned to various points on the body, cupping is an ancient form of therapeutic massage, helping to move the stagnant Qi and invigorate the system. Cupping can be used to relieve arthritic pain and is often practised together with acupuncture and massage.

- **Moxibustion**  
  A technique that burns herbal sticks over acupressure points in the body to dispel cold, this treatment promotes circulation and activates points in the body.

The choice of techniques and their combination will be recommended after consultation with the Chinese doctor.
