Guests of MO Bar at The Landmark Mandarin Oriental, Hong Kong can be confident that all fish and seafood served on our menus are the results of sustainable and responsible fishing practices. We aim to provide our guests with the finest dining experience while protecting the future of our fish our suppliers and our business.

MO Bar's SUSTAINABILITY EFFORTS

When MO Bar opened its doors in 2005, sustainability was an unfamiliar subject to most. However, with the vision and the leadership of our Director of Culinary Operations and Food and Beverage, Richard Ekkebus, we set new standards in our operations to ensure that we minimise our harm to the planet, by reducing our environmental footprint and maximising our social impact.

From the get-go, this included such initiatives as serving only sustainable seafood, and supporting charities with causes close to our hearts. Today, we have constructive, meaningful practices in place focusing on ways to minimise waste, reduce single-use plastic and limit our carbon footprint.

To further improve our practices, in 2021 we started working with 'Food Made Good', an organization that provides foodservice businesses with manageable means of understanding, reviewing, and acting on the issues that matter. Within this framework, ten major areas of sustainability are divided under three pillars: Society, Sourcing, and Environment. Accountability is key – our efforts are audited yearly to help us create a clear plan of action for continuous improvement.
