"Welcome to Hyde Park Garden, a restaurant nestled within royal parkland - a place that holds a special meaning for me, having grown up in a small basement flat nearby. For years, those childhood memories lay quietly dormant, until a photoshoot in the park opposite reignited them. During that shoot, I took a moment to pause and absorb the sights, sounds, and sensations around me - and suddenly, it all came flooding back. As a child, Hyde Park was my playground. I got into all sorts of mischief, from sneaking into the boathouse to being fished out of a fountain. So, when you look around, know that this isn't just a peaceful and picturesque setting, for me, it's a place brimming with nostalgia and a deep sense of home." - Heston
