Made in
the UK

Suitable for
Vegans

Sustainably
sourced

Step 1:

Glide the re-mineralising Pink Himalayan Salt & Vitamin E-infused Renaissance Body Scrub onto the body to buff away tired skin cells. Rinse off during a bath or shower. With skin patted dry, massage the body, caressing each limb with the Renaissance Body Treatment Milk.

Step 2:

Gently yet thoroughly cleanse the face with the illuminating Renaissance Cleansing Gel, allowing the Pumpkin Enzymes and Starflower Oil to melt into the skin. Remove with a warm, damp cloth. Repeat for a second time to thoroughly cleanse and nourish skin.

Step 3:

Using long strokes and circular motions on cheeks, forehead, jawline, neck and chest; lightly envelope clean skin with the luxuriously-textured Renaissance Mask. Take time to be consciously-aware of the beautiful scent of organic Rose and Chamomile and the luxuriously nourishing texture.

Step 4:

Dim the lighting before relaxing on the bed or in a comfortable chair for 10 - 15 minutes with your eyes closed. Extend the in and out breath to a count of 5. Focus on the rise and fall of your stomach to help relax and clear your mind. After this time, remove the mask with a warm, damp cloth to reveal soft, bright and hydrated skin.
