

ORIENTAL FAN

On the occasion of Chinese New Year,
The Spa at Mandarin Oriental, Milan offers a holistic ritual designed to start
2023 with awareness and focus.

The treatment takes inspiration from the fascinating traditions of the Far East and the most advanced massage techniques.

The ritual begins with a small Chinese fan soaked in essential oil and waved slowly to release a therapeutic aromatherapy effect.

After a guided meditation, the treatment continues with a relaxing body massage, followed by a facial massage performed with rose oil to regenerate and nourish the skin.

At the end of the experience, you will receive a set of mandalas to colour and to note your 2023 resolutions, welcoming the Year of the Rabbit with awareness and focus.

Available from 22 January to 30 April, 2023.
