MANDARIN ORIENTAL

Your journey begins here

SHANGHAI

"Shanghai is a city of spectacular scenery and contrast, with a character formed and created by the mixing of various nations and cultures. Often referred to as "the Paris of the East", Shanghai boasts a modern infrastructure and the progressive outlook of its residence is famous throughout China."

- New Vision, Shanghai

A rooftop lounge area at night, featuring modern outdoor furniture, a fire pit, and a view of a city skyline. The scene is illuminated by warm ambient lighting and the city lights in the background. A woman in a dark coat is adjusting a lamp on a table, while a man and woman are seated on a sofa, enjoying the view. The lounge is enclosed by a dark metal frame with light-colored curtains and a slatted roof. The city skyline in the background consists of several tall, modern buildings with illuminated windows, set against a dark blue twilight sky.
