RELAX, 
REVIVE, 
REJUVENATE

There are four spacious suites, one with a Hammam style layout allowing guests to enjoy water-based therapies. A wide range of treatments, many using traditional Chinese techniques and ingredients, focus on relaxation, wellness and beauty.
A state-of-the-art fitness centre features the very latest hi-tech machines as well as a 25-metre lap pool. Naturally lit, the pool area features a glass skylight and ergonomic, gently swarmed ceramic chairs along the side. Guests can also use the steam room.
Two destination restaurants, a casual café featuring dishes from a renowned chef and a classic, western-style grill, offer a choice of dining options.
Among the dishes at Café Zi are creations by Chef Wong Wing Keung, who won two Michelin stars for his restaurant in his native Hong Kong. A range of Cantonese specialities feature on the Asian themed menu, along with a lunchtime dim sum selection. Diners also enjoy a terrace view of the magnificent Forbidden City.
Classic dishes, cooked with fresh seasonal ingredients, feature on the menu of Mandarin Grill + Bar, a sister establishment to the famed Hong Kong destination. Diners at the Adam D. Tihany-designed restaurant can book a table, banquette, or private room to enjoy prime steaks and succulent seafood.
SOPHISTICATED BAR

Inventive cocktails, an international DJ and a striking design make MO Bar the place to see and be seen. When the sun goes down, the action starts at this sophisticated lounge, where guests can sip Beijing-themed cocktails created by expert mixologists or savour a vintage malt whisky.
The quietest spot in the hotel is The Library, a place to relax and recharge, perhaps browsing through the collection of carefully selected books, or admiring the artwork, while enjoying a cup of tea or coffee. The Library also has a garden terrace, which is open during the warmer months.
